

XW20K

Digital controller for N. T. applications with "off cycle" defrost and light rel

K: 8 DIN Rail (also in OS or GS format)

Features

Display	On keyboard 3 digits, d.p., -
Remote keyboard	6 touches (CX620-T620-V620)
Power supply	24, 110, 230Vac

Probe inputs

Thermostat	NTC / PTC
Display	NTC / PTC
Condenser	NTC / PTC

Digital inputs

Alarm, start defrost, door switch, pressure switch	configurable
---	--------------

Relay outputs

Compressor	20A
Light, ON/OFF	16A

Other Outputs

Hot Key output	present
Serial output	TTL

Other

Buzzer	On keyboard optional
---------------	----------------------

Measurement

Measurement range	Probe dependent
Accuracy	Better than 1% of full scale

Generals

Data Storage	EEPROM memory
Operating temperature	0°÷60°C 32°÷140°F
Storage temperature	-30°÷85°C 22°÷185°F
Relative humidity	20÷85%

Resolution

0.1°C or 1°F
