

XH20P-01000

Humidity probe, output 0÷10Vdc

This humidity probe is suitable for all those applications where it is necessary to detect and control humidity. Such applications are: refrigeration, drying processes etc..

Features

Power supply	15÷35Vdc
Output	0÷10Vdc
Power consumption	22mA max

Measurement

Measurement range	0÷99% R.H.
Accuracy	±3%

Generals

Protection	IP65
Operating temperature	0°÷70°C 32°÷158°F
Storage temperature	-30°÷85°C 22°÷185°F
