

XC1008D

Advanced digital controller for compressor racks with up to 8 compressors and fa

D: 10 DIN Rail mounting

Features

Power supply	24Vac/dc (from TF10D)
---------------------	-----------------------

Probe inputs

Auxiliary 1	NTC/PTC
Auxiliary 2	NTC/PTC
Suction 1	NTC/PTC /4÷20mA / 0÷5V
Condensing 1	NTC/PTC /4÷20mA / 0÷5V

Digital inputs

Low pressure switch 1 (main voltage)	present
High pressure switch 3 (main voltage)	present
Safety loads (main voltage)	8
Free of voltage	4 configurable

Relay outputs

Load	8x7A configurable
Alarm	2x8A

Analog outputs

Inverter compressor output	4÷20mA / 0÷10V optional
Inverter fan output	4÷20mA / 0÷10V optional

Other Outputs

Hot Key/Prog Tool Kit output	present
Visograph output	VGC810
Serial output	RS485

Other

External module connections	LAN optional
Buzzer	On keyboard optional

Accessories:

VGC810 - Programmable graphic display
